

Coding Squad

Team size: Strictly 3 members

Contest duration: 3hrs

Prelims Date and Time: 12th March, 8pm-11pm

Rules:

- It is a team contest.
- Team members should be of the same college and should have the valid college ID cards.
- The contestants will be placed on the leaderboard based on the time of submission, correctness and their efficiency of the solutions.
- **This event is exclusively for teams from other colleges.**
- There will be a preliminary round for the registered teams.
- Top 25 teams from the preliminary round will be selected for the main contest.
- **Preliminary round is a 3-hour online coding contest.**
- **The main contest is an Onsite contest.** The prizes will be awarded only to the teams who appear onsite.
- The organisers reserve the rights to change any of the above rules as they deem fit. Change in rules, if any, will be notified to the registered teams.
- If number of teams registered is less than 20 then the prize money will be modified accordingly.

Format:

- Languages: All programming languages which are supported on CodeChef.
- Questions: Around 6-7 questions with varying difficulty levels.

Judging Policies:

- Each problem will be of varying points depending on the level of difficulty.
- ICPC style ranklist.
- The co-ordinators have the right to take any decision during the contest and that will be binding.

- Cheating in any form will not be tolerated and will lead to the immediate disqualification of the team.

Pre-requisites to participate:

- Anyone with a knack of programming and likes solving logical problems and puzzles are welcome.
- Participant teams are required to create a CodeChef account if they don't already have one.
